Subject: USG Jumbo-Jensen mine maps

Dear Ms White:

Your letter to me dated January 25th granted an extension to USG for filing revised reclamation maps. The extension was granted until March 1, 2007. This memo is to let you know that our filing may be delayed until March 15th due to an unforeseen time requirement for the digital volumetric calculations. The Jumbo-Jensen M041008 mine consists of numerous quarries spread over a large area, and requires separate volumetric computations for each one. We will continue to devote maximum effort toward completing this project. Please call or email if you have any questions or suggestions.

Sincerely,

Joseph E. Crawford
